

Accumulating Snow Potential Thu Night into Fri

New York, NY
WEATHER FORECAST OFFICE

OVERVIEW

- Low pressure will pass to our south and east and bring an accumulating snow to the area late Thursday night into Friday morning.

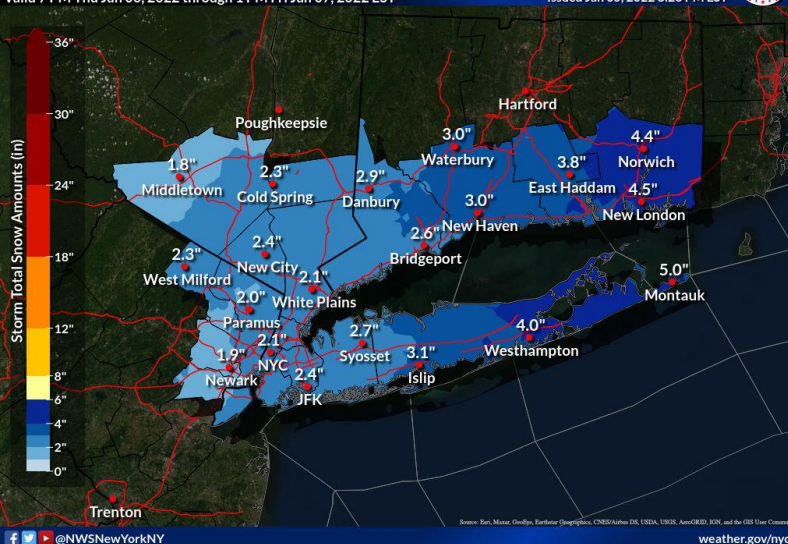

TIMING AND IMPACTS

- Accumulating Snowfall Potential Thu Night into Fri:** Moderate to high potential for 2" or more of snow accumulation. The potential remains low for 6" or more of accumulation.
- Impacts** - This will result in snow covered roads and hazardous travel, especially for the Friday morning commute.

Expected Snowfall - Official NWS Forecast

Valid 7 PM Thu Jan 06, 2022 through 1 PM Fri Jan 07, 2022 EST

Weather Forecast Office
New York, NY
Issued Jan 05, 2022 3:26 PM EST

NWS ALERTS

- HWO**
- Winter Weather Advisory may be needed if snowfall totals trend higher and/or confidence is increased.

FORECAST CHALLENGES

- A weaker and/or farther offshore low would result in lighter snow accumulations, with a stronger and/or closer to the coast track increasing the potential for greater accumulation (especially for northern and northwestern sections).

NEXT BRIEF

- By 6 AM Thursday morning.
